with Smith-Corona Changeable Type

Changeable type. If you are a college student, chances are that the papers, reports and routine homework that you do call for special signs and symbols. If you work in medicine, law, or any of the other professions, special symbols are critical to your writing. If you type languages, you know the importance of accents.

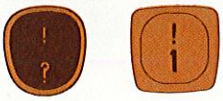
Smith-Corona offers removable accents, signs and symbols which can be put on most Smith-Corona portables in seconds. They do not permanently change your keyboard.

Aside from giving your work a professional look, you can change the nature of your keyboard at any time. For example, if your college major is Engineering and requires math symbols, and your career turns to medicine or law, you can change the symbols to fit your new needs.

Smith-Corona does make special keyboards. However, the changeable type feature performs virtually the same functions at far less cost. And, of course, you can change type at any time.

Each type-unit has two characters and a matching key cap. On most Smith-Corona portables there are two type bars which accept changeable type. On some models, there is one special type bar.

Important...



There are two keycap shapes available. One of these shapes must correspond to your typewriter keyboard. Please make sure that the shape of the changeable keycap on your typewriter is circled in the Order Information Section.

Smith-Corona Mail Order Dept.

SCM Corporation

Groton, New York 13073

Before sealing have you circled the correct keycap and illustrated characters?

Moisten well press down 6 firmly and mail promptly!

Also, be sure you print your name and address 1 correctly. And be sure to place a stamp in the stamp box.
New postal rules prohibit delivery of mail without postage.

Here's how easy it is to use:

1. Holding the type bar firmly, raise the type gently, pressing forward. When you feel the lock release, lift the type off.

2. Pick up the new type with characters facing away from you toward the carriage, top up. (The top of each changeable type has a small lock bar in the center, the bottom is open.

3. Slip the type into position, pressing gently downward and toward you at the top, away from you at the bottom. Press gently, do not force; you will feel it snap-lock into position.

4. Lift the corresponding key-cap up and off and press on the proper one.

Warranty

FULL 90-DAY WARRANTY

SCM Corporation guarantees this typewriter to be free from defects in material and workmanship. If this typewriter needs service during the first 90 days from the date of purchase take your typewriter to one of the Smith-Corona Service locations listed on the insert in this envelope. Be prepared to show Proof of Date of Purchase.

LIMITED 5 YEAR PARTS WARRANTY

Following the first 90 days from the date of purchase and thereafter until 5 years from the date of purchase SCM will replace any part that proves defective at no charge for the part but with the usual charge for labor and transportation.

LIMITED 1 YEAR RUBBER PARTS WARRANTY

Following the first 90 days from the date of purchase and thereafter until 1 year from the date of purchase SCM will replace platens and other rubber parts which naturally deteriorate with age at no charge for the part but with the usual charge for labor and transportation.

GENERAL PROVISIONS

These warranties apply in the United States only. They do not cover accident, neglect, misuse or abuse, nor do they cover ribbon replacement or cleaning of the typewriter.

SCM® SMITH-CORONA
SCM CORPORATION

525973 Rev A

Learn the elements of touch typing in just 10 days.

In ten lessons, you can learn the important "home row", the correct finger movements, the location of all the keys and controls. In no time at all, you can be "touch typing" without looking at the keyboard. The techniques are all explained and illustrated in words, charts, pictures and voice. Your instructor will guide and help you, lesson by careful lesson, and if you don't quite grasp all of it, you can repeat it at any time.

For "two-finger" typists, there is a new typing speed awaiting you in the touch method.

If you've been a touch typist and for some time haven't exercised your skills, this course is an unbeatable refresher.

Five lp Columbia records containing ten lessons. Plus an easel-type book of instructions, charts, and drills. Only $5.95. Please add sales tax. Make checks payable to SCM Corporation. Allow two weeks for handling.

TO ORDER: Remove this Address Label and enclose with your check or money order.

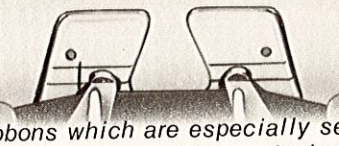
SMITH-CORONA PORTABLE TYPEWRITER RIBBONS



It is important *to use ribbons which are especially selected and spooled to fit your Smith-Corona typewriter. These ribbons, designed to give you smooth and even print, are made of fine quality nylon material.*

Ribbons may be purchased *from authorized Smith-Corona dealers or ordered directly from SCM Corporation. Mail order price is $2.00 each, including handling and postage.*

To Order:

1. *Fill in the order form stating quantity of each color ribbon you want. Figure your total cost and add sales tax if applicable.*
2. *Fill in the address label below. This will be used as the return label for your order. Please type or print legibly.*
3. *Enclose both the order form and address label with a check or money order (payable to SCM Corporation) and send to SCM Corporation, Dept. R, 8550 West Bryn Mawr Avenue, Chicago, Illinois 60631. Do not send cash or stamps. Allow two weeks for handling.*

To avoid error in ordering, match your ribbon spool with this circle. If your spool does not match this dimension exactly, draw in a heavy circle around your spool.

Smith-Corona Large Spool fits all Smith-Corona Non-Cartridge Portable and Office Models except 3-Series Electric, Corsair, Ghia, Skyriter, Cougar.

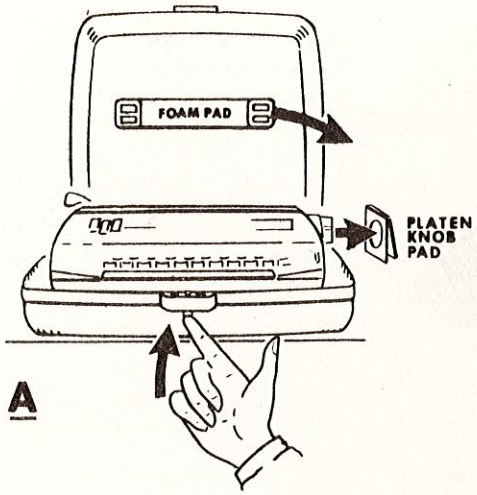
Instructions for Removal of Typewriter

The materials used to pack your new typewriter have been specially designed to provide maximum protection against mishandling in shipping. The instructions below tell you the right way to remove them.

BE SURE TO SAVE ALL THE PACKING MATERIALS, AND USE THEM IF YOU SHIP YOUR TYPEWRITER AGAIN.

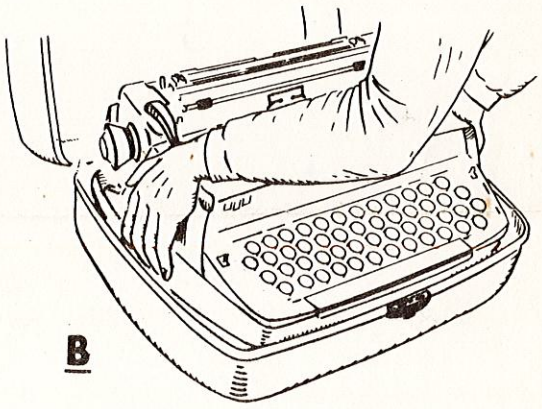
Follow these simple instructions to remove typewriter from carrying case:

Remove the foam packing pad from inside carrying case lid, and the corrugated pad from right platen knob of machine. Set both items aside. Push up on tab with finger to unlatch machine (Illustration 'A').



A

With both hands, grasp machine on its sides (Illustration 'B') and lift front of machine up until bottom of typewriter clears carrying case, then pull forward and remove typewriter from case.



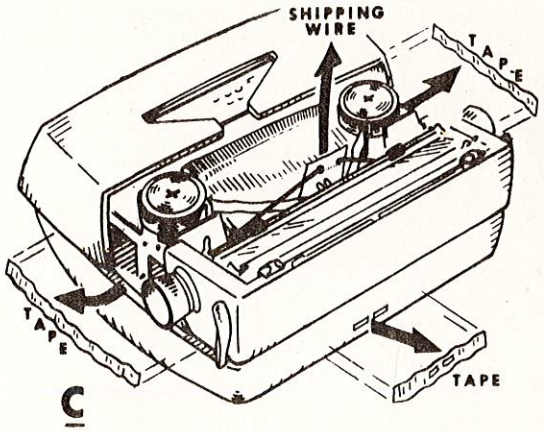
B

Untape and remove plastic bag from machine.

Open ribbon spool cover (Illustration 'C') by sliding it carefully towards you until it reaches its open stop position, fully exposing ribbon spools. Remove tagged copper-colored shipping wire to release the typebar segment, by applying pressure inward and lifting out. Be careful not to remove ribbon from slots of Ribbon Guides.

Remove tape from right and left of typewriter casing at points just beneath ribbon spool cover. Remove tape from lower portion of casing at back of machine (Illustration 'C').

Close ribbon spool cover by carefully guiding it back until it reaches closed stop position.



C

Before you start typing, please read the Owner's Manual packed underneath the machine. It will help you become familiar with the many time-saving features on your new typewriter.
